Systemic Constellations Facilitator

Guiding women to uncover the 'real reasons' they are struggling in their business so they can move forward with confidence and clarity!

Renata Consiglio is an experienced Women's Business Coach & Systemic Constellations Facilitator for women in business that know they are capable of having a bigger impact through their work but feel stuck, overwhelmed, and unsure of the next right move.

Renata has over 25 years experience in Human Resources, business advising, and entrepreneurship ensuring that guidance is not only passionate and empowering, but practical and realistic so that clients can make business decisions they feel good about whilst achieving success.

Her signature experiences are Systemic Constellations where clients are expertly guided through an embodied and intuitive physical map to visually represent the normally invisible dynamics that are keeping them small in business. In these powerful, collective experiences, participants are skilfully guided to uncover exactly where the blocks and self-limiting

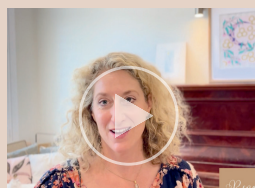

beliefs originated, how they are preventing them from a positive experience in the present, and clarity on how to move forward with the support they require for success. This approach is simple, supportive, and dissolves self-limiting patterns in hours not days or months.

Clients find Renata is empathetic, intuitive, and relaxed in her style as she guides clients to uncover the root cause of why they find themselves stuck and gain the confidence and clarity needed to make change and run businesses with renewed energy.

Renata lives on the Northern Beaches of Sydney, Australia running her business both online and in person whilst prioritising her young family and balanced lifestyle.

"I have been lucky enough to see Renata in action both in a group environment and one to one. She uses a systemic coaching approach to get to the heart of the problem.

Never heard of this approach? Neither had I, but it was something that I will never forget."
